

# Whiteboard Designer Range

**Bright Colours = Attention.**

**Attention = Better Communication**

Our 'Designer Range' of whiteboards ... give you the freedom to choose the colour of your whiteboard for any modern corporate environment.

Slim aluminium 'frameless' L frame ... 16x12mm in satin silver ... all you really see is the whiteboard .. the frame is just about invisible from front on.

You have the choice !

Why should your whiteboard ... just be white ?

Our NEW range of fantastic colours (non magnetic with a 5 year minimum warranty) add a real sense of style to any office !

And ... the whiteboard is 'write on - wipe off' !

See our range of whiteboard colours >>>

*And to compliment our Whiteboard Designer Range ... there is also Designer Noticeboards ..*

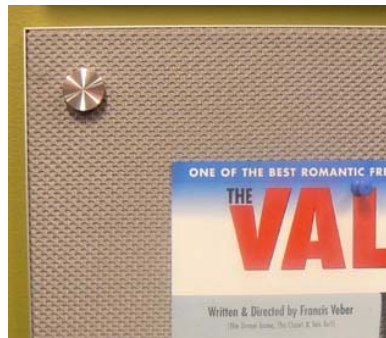

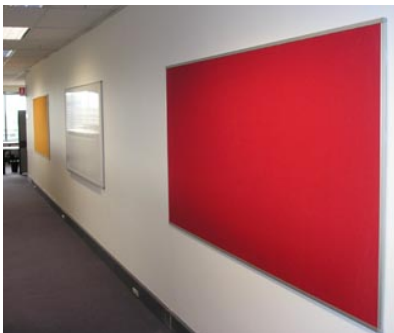

Our 'Designer Range' of Noticeboards compliment and enhance our designer whiteboard range.

Choose your own fabric that matches your décor and your office really has a modern co-ordinated look.

Slim aluminium 'frameless' frame ... 20mm in satin silver ... the frame is just about invisible.

Soft pin in surface under the fabric ensures any pin works with our boards.

Our preferred installation method is via the stainless steel stud (supplied with each Designer Pinboard).
